The Chicago anarchists have been sentenced to be hanged December 3. It is hoped that from this there will be no escape.

There are two democrats of New York who do agree. President Cleveland and Governor Hill both agree that they want the nomination for 1888.

The news comes from Denver that the Rev. Myron W. Reed, formerly of Milwaukee, has been nominated for congress by the democrats of the Denver district. This means a humorous campaign. Mr. Reed is one of the popular preachers of the day and is a Presbyterian. He is one of the best story tellers in Colorado, and is to the Presbyterian church what Dr. E. D. Huntley is to the Methodist church. It is proper to state a truth connected with Mr. Reed's candidacy—that he is no democrat. He never was. He is running for the fun of the thing, and to be elected will have to overcome a majority of 7,000, which Congressman Symes received two years ago.

How politics does twist a man around some times. For instance, there is John A. Johnson, the democratic candidate for state treasurer. He is a strong prohibitionist and is running on a platform which denounces prohibition. He is a prohibitionist, but accepts the nomination on a platform which is hostile to prohibition. But Mr. Johnson will try to wiggle through the campaign, and when it is over, and he is in a condition to take a sober retrospect of things political, he will then conclude that no man can ride two horses at once when each is going in an opposite direction. A good many very elastic politicians have tried to perform this feat, and have always failed.

The St. Paul Pioneer Press has the correct idea in regard to the Wisconsin vote, as will be seen from the following editorial item: "The prediction that Wisconsin's labor vote of 30,000 will go to Cochrane, the granger nominee for governor, is a rather wild one. Neither the labor vote nor the farmer's vote will go bodily to Cochrane. Gov. Rusk is not a popular man among the farmers, and the granger vote has no solidity. It is a mistake, too, to suppose that the Wisconsin workingmen are antagonistic to Rusk. The socialist element will be against him, because he is a strictly law and order candidate; but multitudes of workingmen, who own homes, will vote for Rusk as the promoter of the public peace and security."

An opinion that is worth something as to the way the farmers will vote, is that of the Hon. S. C. Carr, of Milton, grand master of the state grange. This is what he says: "As far as my observation has gone I believe that Gov. Rusk will not fail to have just as strong support as ever and even stronger. Among the farmers I know of some democrats who will vote for him this fall, believing that the issue is an important one, and that they should stand on the side of law and order. Mr. Cochrane is a very fine man and highly respectable, but I don't think his candidacy will control any of the grange vote on the ground of his being ex-master of the state. The fact is, the farmers are going to vote for Rusk, I believe."

There is not a brighter man in the United States than Colonel Robert Ingersoll. There is not a more "taking" orator in this country than he, and in kindness of heart he has not a superior among all our public men. And yet in many respects Colonel Ingersoll is one of the most unreliable of men. His judgment is as unsteady as the clouds. He will preach public and political morality one day and the next day vindicate the character and doings of the worst political scoundrels in the country. Another of the strange freaks of Ingersoll's mind is his sympathy for Henry George, the socialist who is running for mayor of New York. He advises the republicans to vote for him and uses this argument: "If the democrats unite there will be no chance for the republicans, but Henry George has enough strength in the city, added to the republican votes, to secure a majority, and the republicans are thus afforded an opportunity of choosing between Henry George and a Tammany chief or between Henry George and some one of the county democracy still in the country. It is the duty of the republicans to defeat the democrats and I do not see why they should hesitate a moment in

the choice." This shows what an unsafe leader Ingersoll is. It would be better for the republicans of New York city to go down to defeat rather than cast their votes for a man who has the appearance and support of all labor agitators and anarchists in the country.

The State Journal of the 9th instant, hints the following editorial, the sentiment of which should be supported by every republican in Rock county: "In the 31 assembly district of Rock county, Hon. James O. Bartholt, of Milton, has been re-nominated by the straight republicans, against James E. Scott, the democratic nominee and J. C. Plumb, the prohibitionist. There is a split in the republican ranks, and J. W. Stoney has been placed in the field as an independent candidate by those members of the party who do not support Mr. Bartholt. The State Journal feels confident that if the republicans of Mr. Bartholt's district could all have an opportunity to see the manner in which he acquitted himself in the legislature of 1885, there would be no opposition to him by those who should be his political friends. As chairman of the house section of the joint committee on printing, and as a leading member of the committee on education, he achieved an enviable record among his fellow members and the representatives of the press. Always in his seat prompt in attendance on committee meetings, never obtuse but always thoroughly in earnest, his dignified remarks on any subject which he chose to discuss on the floor were always attentively listened to, and he was throughout the session regarded by all as a safe and reliable member. The people of his district could not have been better served than they were by Mr. Bartholt, and so excellent a record is surely deserving of endorsement. The State Journal trusts that no petty neighborhood disputes will be allowed to stand in the way, when the republicans in and around Milton come to seriously consider the matter, and that Mr. Bartholt may be returned to the assembly by a majority worthy of himself and the good judgment of his neighbor."

**A STRANGE CANDIDACY.**  
Thousands of electors of the Second congressional district have signed a call asking the Hon. Richard Guenther, of the Sixth district to become an independent candidate for congress in the former district. This call was signed by democrats as well as by republicans—the former because they do not like the Bragg-Delaney method of bartering political influence for votes. The voters in the four counties comprising the Second district are in dead earnest, and if such a thing is possible they purpose to crush the Dodge county ring of politicians. In response to the call Mr. Guenther said:

To the Electors of the Second Congressional District:  
I am in receipt of a call, asking me to become an independent candidate for congress in the Second congressional district. The fact that the same is so numerously signed by prominent citizens of both political parties and representative men of every county in the district, induces me to accept, believing it to be the duty of every American citizen to obey, if possible, the people's wishes, when so emphatically expressed. If elected, I shall serve the interests of the people of the Second district in particular, and those of our state and of our common country with fidelity and to the best of my ability.

It shall be my aim in the future, as it has been in the past, to defend the rights of the people against the encroachments of corporate power and monopolies constantly and fearlessly. I will defend the rights and condemn the wrong whether found in one party or in the other. I am of the people of the Second district for the last twenty years, and I am confident, and assure them that my conduct will always be such as to merit their continued good will. Very respectfully,  
RICHARD GUENTHER.

There are strong hopes that Mr. Guenther will be elected. Of course he has a large democratic majority to overcome—a little over 4,000. But public sentiment is strong against Delaney and it is quite a possible thing for Mr. Guenther, the man of high political morals, to defeat Mr. Delaney, the man of disgraceful political methods. Let it be done.

### HADDON'S MURDERERS.

The saying "murder will out" is almost as old as the hills. Few murderers, no matter how mysterious the murder they commit might seem for a time, ever escape detection. Their crimes, sooner or later, find them out. The confession can not always be depended upon in the attempt to cover up an appalling crime. Men are frequently betrayed by the consciousness of guilt, and little by little they let the secret out, and the mystery is revealed.

This is very much the process by which the details of the murder of the Rev. G. C. Haddock have become known. The confession of Leavitt is in substance this: "That he was made a member of the Saloonkeepers' association and after the meeting he remained with other members and discussed the proposition of employing riflemen to whip the attorneys for the prosecution; that after several failures, a brewer named Aresdorf undertook the work of beating some one connected with the prosecution of saloonkeepers, the aim being to intimidate those engaged in pushing the case against the saloonkeepers who violated the law; that Aresdorf, seeing Mr. Haddock on the street, approached him and raised his fist to strike him in the face, whereupon Mr. Haddock pulled something from his pocket and struck Aresdorf, who then drew a gun and shot Mr. Haddock."

There does not appear to be any doubt for the truthfulness of Leavitt's story. He knows all the men implicated in the murder. He states that he saw the shooting, being only a few yards from Haddock when he fell. The only way that Aresdorf and the conspirators can escape is by the blackest perjury; but there is hardly a chance that even this crime will help them. Men that will nurse the spirit of lawlessness and bust

over their efforts to defy law, will not only commit murder, but will commit perjury as well. The law-abiding people of Sioux City, know this, the authorities know it, and unless the courts and the lawyers are as low and corrupt as the whiskey element of the city, the murderers will hang. Men who will organize a conspiracy to murder those who attempt to enforce a law should suffer the same fate as the Chicago anarchists. This is the only way the principles of social order can be sustained.

### THE TRUSTED SCOUNDREL.

HE TAKES FRENCH LEAVE OF CHICAGO FOR CANADA.

N. M. Neeld, a Pork Packer, Steals \$400,000 on Bogus Warehouse Receipts, and Ruins the Firm He Belonged to—Also Caesar's Wife He Was Alleged Suspicion, But He's Gone.

CHICAGO, Oct. 11.—A sensation was created in board of trade circles Saturday morning by the announcement of the failure of the packing and provision firm of J. C. Ferguson & Co. The immediate cause of the failure is the disappearance of N. M. Neeld, the managing partner of the concern, who is now supposed to be in Canada. It is said he has been speculating on the board for over a year, and had issued bogus warehouse receipts for property aggregating \$400,000. The loss will fall altogether on the banks.

The losses, of course, are very serious, but a banker who is familiar with the facts says that the losses with the banks are as follows: Corn Exchange, New York, \$100,000; Bank of British North America, Chicago, \$75,000; First National, Chicago, \$50,000; Continental, Chicago, \$50,000; Metropolitan, Chicago, \$50,000. In addition to this it is reported that there is a great number of receipts in the hands of board of trade capitalists which will aggregate at least \$100,000 more.

The firm was composed of J. C. Ferguson, Ed. Ferguson, a son; Goodbody, of Liverpool, N. E. a son-in-law of Ferguson, and Mr. Howard, also a son-in-law. The latter had his headquarters in New York, and from that place managed the shipments. For that reason some banking was done there. The firm was in business for twenty-five years. It was in existence in Indianapolis before Chicago was the packing center. N. M. Neeld, the fugitive, was fine looking, agreeable, modest, and courteous in manner. He and a son of the senior Ferguson, Edward, moved here and opened a house at the yards about ten years ago. Neeld has been the managing partner ever since. The firm had a very large business with England, and as well as that with the trade. At the last election of the board Neeld was elected a director, and it was remarked at that time that he was the most popular man on the ticket. When Neeld left for Canada Thursday night his wife went with him. It is said that the woman was nearly beside herself with emotion, and so near being unable to control herself that she fairly screamed aloud. She, however, followed the defaulter with wife devotion.

The failure caused much excitement and comment on "change. Men in the provision crowd said they believed the manager of the firm, Mr. Neeld, had lost on the board for a year or more. They thought the alleged year-long issue of warehouse receipts on provisions had been made to cover up the losses, and that the loss of money fell chiefly on the banks. It was not thought that the manager would sell such a large sum of money. The failure, and the circumstances surrounding it, made the banks more cautious about making advances.

Mr. Ferguson, the remaining member of the firm here, when seen Saturday gave it as his belief that Neeld had gone to New York. The fact that Mr. Ferguson did not know of the defection is considered remarkable by those who did not know the methods of the firm. That those who are familiar with Neeld and his management do not believe that Mr. Ferguson knew, until perhaps within a day or so, anything of the crookedness of his sister's husband.

As nearly as can be estimated Neeld's stealing amounted to about \$500,000, the only loss he neglected to get away with being two bags of salt.

### TRAGEDY IN A THEATRE.

A Pretty Actress Assassinated by Her Husband, Who Then Kills Himself.

St. Louis, Oct. 11.—As Josie Marshall, a pretty variety actress who has been filling an engagement at Edgar's Alhambra theatre on St. Charles street, was about to prepare herself for the performance of the evening, her husband, Frank Summeyer, entered the dressing-room, and without a word threw one arm about her and with the other drew a dagger, and plunged it into her heart. She broke away and ran into the next dressing-room, where she fell into the arms of Miss Josie Palmer, exclaiming, "Frank has killed me" and expired. After the woman freed herself from his grasp, Summeyer turned the weapon against himself, and in a few moments lay dead on the floor. The tragedy was witnessed by the special officer of the house. He fell and expired in a few minutes. Both bodies were removed to the morgue. The cause of the tragedy was said to be no quarrel between the two; that they had always been remarkably affectionate, and that the tragedy was a great surprise to them.

Glenn Soule is a Report of Prosperity.

WASHINGTON, Oct. 11.—Governor Stevenson, of Idaho, in his report to the secretary of the interior says that during the past year the territory has rapidly increased in population and agriculture has been good. The mining interests are prosperous, the fruit products, which rival, if they do not excel, California, excellent, and the general health good. He says that the mail facilities of the territory have increased, the territory growing and progress of the territory. Governor Stevenson closes the fact that in 1876 there were 2,777 children of school age, while now there are over 18,000. In that year \$16,500 were paid for school purposes, while this year the amount exceeded \$100,000. Attention is called to the fact that the Indians hold large reservations which Governor Stevenson recommends be opened to settlement and the Indians be compelled to take their lands in severalty. The Chinese labor question is alluded to as one of the gravest that the people have to grapple with. The Chinese, he says, are antagonistic to the white race, and their presence can not be tolerated. He recommends the abrogation of the Chinese labor treaty and exclusion of the Chinese as the solution of the problem.

Removal of Justice Chase's Remains.

WASHINGTON, Oct. 11.—The body of the late Chief Justice Chase was exhumed Friday at Oak Hill cemetery, preparatory to its removal to Cincinnati for final interment. Several of the justices of the supreme court met in the United States supreme court chamber Saturday to discuss the question of sending a committee with the remains. The subject was discussed, but details not sufficiently settled to warrant publication. The remains will be taken to Cincinnati Wednesday, and upon arriving at Cincinnati a committee will take charge of the body and carry it to Spring Grove cemetery, where the funeral exercises will be held at 11 a. m. on Thursday. Ex-Governor Hendon and Justice Matthews will deliver addresses after the interment.

Harpooned by a Hayfork.

MINNEAPOLIS, Ind., Oct. 11.—Frank Buzzard, aged 14 years, was probably fatally injured by the falling of a barpoon hayfork from the top of a hayrack. The rope broke and the fork fell thirty feet, fracturing the boy's skull and tearing it open.

### THE CHAMPION BALL THUMPERS.

Chicago in the League and St. Louis in the Association.

CHICAGO, Oct. 11.—The base ball championship in the league, which was an exceedingly uncertain question Saturday morning, was settled by night in favor of the Chicago club with three games to spare. When President Spaulding heard the result he telegraphed Capt. Anson congratulating the club on its victory and tendering each man a suit of clothes and the nine collectively half the receipts in the coming game with the St. Louis Association nine. The following shows the standing of the clubs at the end of the season: Chicago—Games won 90, games lost 54; Detroit—won 87, lost 59; New York—won 75, lost 44; Philadelphia—won 71, lost 41; Boston—won 65, lost 61; St. Louis—won 43, lost 70; Kansas City—won 23, lost 50; Washington—won 27, lost 51.

The association clubs have two more days to play, but their position as shown below can not be changed, no matter who wins: St. Louis—Games won 90, games lost 40; Pittsburgh—won 78, lost 37; Brooklyn—won 75, lost 40; Louisville—won 69, lost 37; Cincinnati—won 63, lost 41; Athletics—won 57, lost 47; Metropolitan—won 52, lost 53; Baltimore—won 49, lost 74.

Following are the scores of Saturday's league games: At Boston—Chicago 12, Boston 8; at Detroit—Detroit 12, Philadelphia 6 (afternoon game); Detroit 1, Philadelphia 5 (afternoon game); at New York—New York 4, Philadelphia 3; at St. Louis—St. Louis 9, Brooklyn 4; at Louisville—Louisville 9, Brooklyn 4; at Cincinnati—Cincinnati 9, Brooklyn 4; at Philadelphia—Philadelphia 9, Brooklyn 4; at Baltimore—Baltimore 9, Brooklyn 4; at Washington—Washington 9, Brooklyn 4; at Kansas City—Kansas City 9, Brooklyn 4; at Chicago—Chicago 9, Brooklyn 4.

### WHY IS IT

That rheumatism and neuralgia are so prevalent? This question has not been satisfactorily answered, but it is certain that these diseases are not only the most painful but among the most common, and some member of nearly every family in the land is the victim of one of these dread tormentors.

Ladies seem to be peculiarly liable to neuralgic attacks, which, in the form of neuralgia headache, pain in the back, or nervous twinges are of constant occurrence. Not until the discovery of Athliophorus had any remedy been found for either rheumatism, neuralgia or nervous headache, and they were generally conceded to be incurable, but Athliophorus has been proved to be not only a certain cure for these diseases, in all their varied forms, but a safe remedy. If, in the use of Athliophorus, the bowels are kept freely open, its success is certain, and to aid this, Athliophorus Pills are recommended, which, while providing the necessary cathartic, will be found to be a valuable aid to the action of the medicine. Athliophorus is no experiment, it has been tested and has proved its wonderful efficacy.

The Athliophorus Pills were originally prepared as a remedy for use in connection with Athliophorus for rheumatism and neuralgia and kindred complaints. Used in connection with that remedy, they are a certain cure for either of these very common and distressing diseases. They have also been found to be an invaluable remedy for any and all diseases arising from vitiated blood or general debility. They are especially valuable for nervous debility, blood poisoning, dyspepsia, distress after eating, headache, constipation, loss of appetite, and all stomach or liver troubles. For diseases of women they are invaluable. These pills are perfectly harmless and may be safely used by adults or children.

Testimonials of those who have been cured will be sent free on application.

Every druggist should keep Athliophorus and Athliophorus Pills, but where they cannot be bought of the druggist, the Athliophorus Co., 132 Wall St., New York, will send either (charge paid) on receipt of regular price, which is \$1.00 per bottle for Athliophorus and 50c. for Pills.

### MISCELLANEOUS ADVERTISEMENTS.

## THE LION'S SHARE

Of the public patronage is what we are all after, and with the majority of advertisers—"Any way to get there," is the only rule. "Goods below cost," "Unheard of prices," "Under selling everybody" Less than half price," are a few of the backneyed expressions so freely used as "bait" for the unwary.

## THE NEW YORK

## SAVINGSTORE

Management believes the public to be fully capable of distinguishing the genuine from the sham, and points with pride to its record of bargain giving, which has earned it a reputation for Reliable Advertising. This belief is founded on the fact that all our Bargain and Special Sales, have been liberally patronized.
